PROFILE

"Unity Game Developer with 3+ years of experience in developing immersive mobile games for iOS and Android. Expertise in C#, Unity, gameplay mechanics, UI/UX, and performance optimization. Skilled in monetization (IAP, Ads), analytics, and debugging. Passionate about delivering high-quality, engaging player experiences through optimized and well-structured code."

WORK EXPERIENCE

Unity Game Developer SEP 2022 - PRESENT
Five River Solution islamabad,Pakistan

- Worked on 2D and 3D game projects across various genres, including RCC simulations, animal & creature simulations, ASMR, sports (football, cricket, carrom), strategy, sorting, and fighting games.
- Develop and implement in-app purchases, Google In-App updates, and integrate ads (AdMob, Applovin, Yodo) and analytics (Google Analytics, Firebase Analytics, Appsflyer).
- Collaborate with a team to enhance game mechanics, optimize performance, and work on both existing and new projects.

Unity Game Developer April 2022 - AUG 2022
3 Ace Studio **Bahawalpur, Punjab, pakistan**

- Developed RCC simulation and shooting games in Unity, focusing on game design concepts, UI/UX, and team coordination.
- Worked with Unity basics and advanced features while contributing to various game genres and collaborating in a fast-paced development environment.

Unity Game Developer Intern Dec 2021 - Mar 2022
JHU Technology **Bahawalpur, Punjab, pakistan**

- Gained foundational knowledge in Unity and C# programming.
- Contributed to a basic RCC simulation project, implementing small game modules under the supervision of senior developers.
